**RESPONSE TO RESTRICTION REQUIREMENT**

COMMISSIONER FOR PATENTS  
ALEXANDRIA, VIRGINIA 22313

SIR:

In response to the Restriction Requirement stated in the Official Action dated April 2, 2003, Applicant provisionally elects Group II, Claims 6-13, drawn to a method for producing a resin-coated sheet.

Applicant respectfully traverses the outstanding Restriction Requirement. The outstanding Office Action states that the inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1. However, MPEP §803 states the following:

If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions.

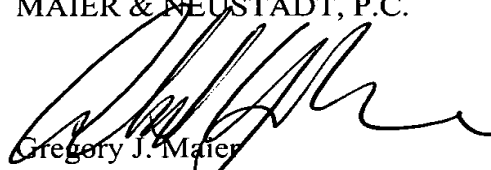

In the present application, Claims 1-5 are directed to resin-coated sheets, while Claims 6-13 are directed to methods for producing a resin-coated sheet. Hence, it appears that these claims in the present application are part of an overlapping search area and that a search for

Claims 6-13 would necessarily include a search directed to Claims 1-5 as well. It is therefore believed that there is no undue burden on the Examiner to search all the claims under MPEP §803, and Applicant respectfully traverses the Restriction Requirement on the grounds that a search and examination of the entire application would not place a *serious* burden on the Examiner.

Therefore, it is respectfully requested that the requirement to elect a single group be withdrawn, and that a full examination on the merits of Claims 1-13 be conducted.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
